

Online Training

"The CONSOLE project, contractual solutions & the lessons learned"

Friday 20 May 2022

9:30 am - 11:00 am

on the Microsoft Teams

The EU project CONSOLE aims to investigate and further develop novel contractual solutions for environment, nature and climate protection in agriculture. The main objective of the second training entitled "**The CONSOLE project, contractual solutions & the lesson learned**" is to inform about selected contract solutions based on the results of the Console research project, as well as to report about the lesson learned, and give the testimony of different contracts.

During this training event you will hear about examples of contractual solutions, their function, strengths and potential weaknesses. The focus will be on results-based payments, collective implementation/cooperation, land lease and supply chain approaches that aim to deliver environmental benefits, in order to facilitate their uptake. The aim is to facilitate the adhesion of voluntary measures to improve the provision of the public goods by agriculture, with a special focus on participants who do not yet have experience. It will also highlight contractual solutions for biodiversity and organic production. Furthermore, it will present the lessons learned during the life of the project.

This free event is addressed to producer associations, farmers, cooperatives, professional organizations, regions and other stakeholders related to the agri-food sector.

Programme

9:15 – 9:30 **Connecting Participants**

9:30 – 9:40 **Introduction**

9:40 – 9:55 **Presentation of the CONSOLE Project**

Speaker – Eriselda Canaj (AREFLH, Bordeaux, France)

9:55 – 10:15 **Presentation of contractual solutions for biodiversity & the organic production**

Speaker - Dr. Lena Luise Schaller (BOKU, Vienna, Austria)

10:15 - 10:30 **Testimony, on the chestnut orchard biodiversity**

Speaker – Dr. Gabriele Loris Beccaro (UNITO, Turin Italy)

10:30–10:45 **Organic farm management: criticalities and advantages compared to conventional farms.
The new project to control the Asian bedbug replicated widely in the Northern Italy.**

Speaker – Sig. Gianfranco Cavallotto (Altalanga Organic Farm)
